1 Question 3

The data is about the 10-second barrier, which completing the men's 100 metres sprint in under ten seconds. The data might help for my future research, and I did use the tutorial web page posted on the lecture to help me parse this data.

2 Question 4

I get data from Twitter by searching for tweets within 100 miles of Norman that used "economics". I used the package "twitterR" and I use the "ggplot2" to analyze the result
